

Change A Woman's Life

You can help bring change into the life of a woman by giving her an inspirational book. It is important that we spread the word regarding the restoration of the human spirit. You can play an important role in our efforts to relieve the suffering of women by giving a friend a book that will bring a joyful change into her life. Women in this country are heavily burden because of the activity of the devil. He has told men that it is now beneficial for them not to marry that they are to carry on relationships with women only for sexual gratification. He has told men that having a family and being a father is an encumbrance they no longer need to be good fathers and husbands; that the fruit of their labor should be used for their devices. We now have a country filled with men who are popinjays. The smell of labor has never been on their bodies. The devil has also told those men that are married that it is alright to commit adultery because everyone is doing it. That they should indulge in any activity that makes them feel good. A mistress on the side is a necessary thing. The devil is telling men it is alright to be self indulgent. If you are unhappy there are a number of devices, such as alcohol, tobacco and drugs that he will provide to lift the spirit of man. God is no longer necessary. Man no longer has to work to please God. The spirit man of God has been turned over to the devil to lead

The devil knows the best way to destroy civilization and return the world to anarchy is to attack the woman. If he can successfully destroy the woman, he can dissolve the family and gain control of the man's mind. Have you not noticed the permissiveness and nudity on television shows. The devil is slowly trying to make us tolerant of all sorts of deviant behavior. It is alright for men to parade around nude or to be seen in bed with one another. It is alright for people to use profanity on television. It is alright for women to participate in actual sex acts on television this behavior is good entertainment. If people persist in this behavior, sooner or later we will see men and children having sex on television. One can call this reality television. How are we going to deal with fornicators on television when we have not defined incest as rape, and adultery and fornication as evil acts?

The women in this country that are suffering need to be told there is help available to them. They need to know that there is a God that they can go to, to solve the problems they are experiencing in their life because of the devil. Women need to know that when they pray help is on the way.
