

Fathers

If you stop using drugs, your children will not have to visit you in prison.

Prison visits are hard on Children. Children are upset when they cannot see their fathers every day. Fathers are the principle component in a child's life. Your absence leaves your child apprehensive and frightened. Is the next puff of marijuana worth your child's life? Think about it do you really want to contribute to your child's unhappiness?

Your absence is the reason why your sons are ending up in prison and your daughters as prostitutes.

What are you going to do about these turn of events run and hide or stand up and change?

Aileen Hernandez, Theodore McNeal, Benjamin Oliver Davis Jr., Marcus Garvey, Stephen Bilko, Sam Greenlee, Malcolm X, Ossie Davis and Nelson Mandela, all heroes of the past, stood up and changed. Why can't you?

Take the marijuana or meth out of your mouth and change.

Sam Greenlee said, "There is no way that the United States can police the world and keep us on our ass too, "unless we cooperate."

You are cooperating every time your visit the dope house and make your purchase.

Stand up and be the man God called you to be. Being a man is hard but being anything else is worse. Check out the grave yard of unfulfilled dreams.

George White was born a slave in 1852 and he changed. You were born in 1952, 1962, 1972, 1982, 1992 and you can not pick up a book and change and you were not born a slave.

Your son thinks being a man is strapping on a gun and calling women Whore's. Is he not a testament to your being a father?

If you are Black take the marijuana out your mouth or If you are White take the meth out your mouth, pick up a book, read and find out how God wants you to conduct your life. He did not fashion you in His likeness for you to walk around on your knees.

Please read and reread the book, A Christian is Never Desperate. Read this book until your back straightens, strength returns to your bones and your spirit soars. Hebrews 4:12

God designed you to walk up right not on your knees.

Stand Up
